

The Littlest Worm

This is a repeat after me song

The littlest worm

I ever saw

Got stuck inside

My reusable straw

(all together) the littlest worm i ever saw, got stuck inside my reusable straw,
my reusable straw

He said to me

Don't take a sip

For if you do

You'll get real sick

(all together) He said to me don't take a sip, for if you do you'll get real sick,
you'll get real sick

I took a sip

And he went down

Right through my pipes

He must have drowned

(all together) I took a sip and he went down, right through my pipes he must
have drowned, he must have drowned

Now don't you fret

Now don't you fear

That liiiiittle worm

HAD SCUBA GEAR

(all together) Now don't you fret now don't you fear, that little worm had scuba
gear, had scuba gear
