

# Toast

This is a repeat after me song  
All across the nation coast to coast  
People always ask, what do i like most  
I don't wanna brag and i don't wanna boast  
I just tell them I like toast

Yea toast

Yeeea aaa toast

Early in the morning at 6am  
You grab a little jelly and you grab a little jam  
You put that bread down into the slot  
And pull down the lever so the wire gets hot

Yea toast

Yeeeee toast

When the first cave men drove in from the caves  
Didn't know what would go with the bacon and the eggs  
Must have been a genius got it in his head  
Plug a toaster in the wall and buy a bag of bread

Make toast

Yeeea aaa toast
